**Your inquiry regarding EU-Directive 2011/65/EU - „RoHS2“ and  
2015/863/EU - „RoHS III“**

Date: 05.05.2020

Dear Ladies and Gentlemen,

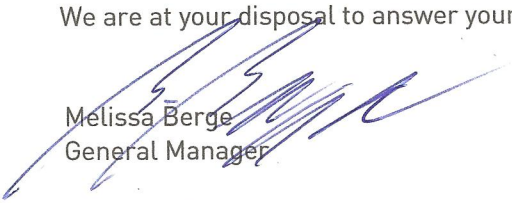

EUROTEC is aware of its responsibilities to the environment and the people. According to our current state of knowledge, our products do not contain any of the hazardous substances above the maximum permissible concentration in homogeneous materials, as listed in Annex II and the amending directive III. The products of IMI Precision Engineering are however excluded from our confirmation.

- |                                          |                                                 |
|------------------------------------------|-------------------------------------------------|
| • Lead (0,1 %)                           | • Polybrominated diphenyl ethers (PBDE) (0,1 %) |
| • Mercury (0,1 %)                        | • Bis (2-ethylhexyl) phthalate (DEHP) (0,1 %)   |
| • Cadmium (0,01 %)                       | • Butyl benzyl phthalate (BBP) (0,1 %)          |
| • Hexavalent chromium (0,1 %)            | • Dibutyl phthalate (DBP) (0,1 %)               |
| • Polybrominated biphenyls (PBB) (0,1 %) | • Diisobutylphthalate (DIBP) (0,1 %)            |

As exception 6c indicates, a possible mass proportion of up to 4% lead is provided for the copper alloys. Some of the components of our products contain approx.. 1,5 % to 3% copper alloy. Our suppliers are currently working to reduce the lead content.

This Declaration of Conformity is issued based on the information submitted by our suppliers. All information has been given the best of our knowledge and ability, as well as careful data checking, and corresponds to our current state of knowledge.

We are at your disposal to answer your questions, should you require more detailed information.
